

**YOUR PATIENT'S**  
safe and effective rehabilitation  
is our priority

A proven medical device that safely and effectively stimulates deep tissue regeneration and relieves pain and inflammation.

**Benefits Include:**

**Rapid Cell Growth**

Laser light accelerates cellular reproduction and growth.

**Faster Wound Healing**

Laser light stimulates fibroblast development and accelerates collagen synthesis in damaged tissue.

**Anti-Inflammatory Action**

Laser light reduces swelling caused by bruising or inflammation of joints to provide enhanced joint mobility.

**Reduced Fibrous Tissue Formation**

Laser light reduces the formation of scar tissue following tissue damage from: cuts, scratches, burns, or post surgery.

**Increased Metabolic Activity**

Higher outputs of specific enzymes, greater oxygen and food particle loads for blood cells and thus greater production of the basic food source for cells, Adenosine Tri-Phosphate (ATP).

**Increased Vascular Activity**

Laser light induces temporary vasodilation increasing blood flow and oxygenation to damaged areas.

**Stimulated Nerve Function**

Slow recovery of nerve function in damaged tissue can result in "dead" limbs or numb areas. Laser light speeds up the process of nerve cell reconnection to bring the numb areas back to life.

**WHAT OUR**  
customers are saying

"The Theralase Laser is the most effective technology we have ever used. Our players now rely on Theralase to keep them healthy and playing at their peak game."

George Poulis and Dave Abraham  
Toronto Blue Jays Athletic Trainers

"The Theralase is my first choice of treatment for patients with arthritis of any joint as well as degenerative disc disease. I also recommend the Theralase for TMJ, carpal tunnel, tendonitis, and foot problems, such as plantar fasciitis."

Dr. Laurence Altshuler MD  
Balanced Healing Medical Center

"The "Theralase Laser" has proved to be a sound and valuable asset to our practice that I would highly recommend."

Dr. Douglas Pooley  
Pooley Chiropractic
